Notification Date: December 15, 2004	Planned Implementation Date: End of Life shipments will be 6 months from the notification date.
Required Distribution: <input checked="" type="checkbox"/> Customers <input checked="" type="checkbox"/> NVIDIA Sales <input checked="" type="checkbox"/> NVIDIA Marketing <input type="checkbox"/> Materials/Planning <input type="checkbox"/> Others _____	
Change Information	
Description of Change: As part of NVIDIA's goal to keep our product offerings innovative and competitive, we are announcing the End of Life for the NVIDIA Quadro4 380 XGL workstation graphics processing units.	
Reason for Change: As the next-generation NVIDIA Quadro lineup is introduced, NVIDIA phases out legacy products to focus production efforts on the latest generation of products and thereby better serve our customers' needs. NVIDIA Quadro FX 500 with AGP8x, or NVIDIA Quadro FX 330/Quadro FX 540 with PCI Express, can be used as a direct substitute at comparable price points.	
Impact of Change and Recommended Action: NVIDIA is committed to providing our customers with the easiest transition path to this change. NVIDIA recommends that customers do the following: <ul style="list-style-type: none"> • Qualify NVIDIA Quadro FX 500 with AGP8x, or NVIDIA Quadro FX 540, as a new product offering from NVIDIA for this segment. • Submit end-of-life forecasts to NVIDIA. • Provide non-cancelable Purchase Orders to NVIDIA for last-time buys. NOTE: NVIDIA may not ship any end-of-life material after the EOL date. Build-to-order material is possible, but must be negotiated on a case-by-case basis.

Change Information

Description of Change:

As part of NVIDIA's goal to keep our product offerings innovative and competitive, we are announcing the End of Life for the NVIDIA Quadro4 980 XGL workstation graphics processing unit .

Reason for Change:

As the next generation Quadro lineup is introduced, NVIDIA phases out legacy products in order to focus production efforts on the latest generation of products and thereby better serve our customer's needs. NVIDIA Quadro FX 700 with AGP 8x or Quadro FX 1400 with PCI express can be used as a direct substitute at comparable price points.

Impact of Change and Recommended Action:

NVIDIA is committed to provide our customers with the easiest transition path to this change. NVIDIA recommends that customers do the following:

- Qualify Quadro FX 1400 as or Quadro FX 700 as new product offering from NVIDIA for this segment.
- Submit end-of-life forecasts to NVIDIA.
- Provide non-cancelable Purchase Orders to NVIDIA for last-time buys.

NOTE: NVIDIA may not ship any end-of-life material after the EOL date. Build-to-order material is possible, but must be negotiated on a case-by-case basis.
